

Gaining a drivers licence can change a young person's life

# Become a driver mentor today!

The L2P Learner Driver Mentor Program provides an opportunity for young people, who face significant barriers, to obtain their drivers licence with the support of a mentor.

As a mentor, you can help a young person develop their confidence and skills, and assist them in reaching the required 120 hours of supervised on-road experience. With a drivers licence, a young person will have a better chance to access education, training and job opportunities.

This program is ideal for parents with upcoming learner drivers or retirees with a couple of hours to spare each week.

No formal qualifications are required, we provide the training and the vehicle to be used for sessions.
